CD/DVD/Game Fix-It

Wouldn't it be nice to sell a CD Repair Kit that actually works? And sells fast?

You will fix discs. Your customers will fix discs. The Fix-It Kits will sell. **Guaranteed or your Money Back Forever.** Packaging that "jumps off the shelf" and impulse pricing turn Fix-It Kits into **money makers**. If you stand a Kit or two up near the register and sprinkle more around the store, you'll need to re-order soon. Stores that recommend Fix-It to their customers sell one or more each day. See dozens of real testimonials from retailers, librarians & DJs at www.cd2000inc.com and see why **Stereo Review Magazine** declared CD Fix-It "strong enough to tackle tough scratches" and praised it as "THE BEST BET".

CD Fix-It is a multi-purpose solution that cleans, repairs and protects discs quickly and easily all in one step. No multi-step hassle; simply wipe on & wipe off! No abrasives. No separate cleaner, polish, sandpaper or machine needed. Cleaning and polishing agents are combined with **patented polymers** that actually resurface the disc. Each application creates a **protective new layer** that permanently fills in the scratches so the scratches become invisible to the laser and the skipping stops!

CD, DVD and Game Fix-It are identical products, just different packaging for different stores or departments. Each 4x7x1" Kit includes a 1-oz. bottle of thick white fluid, two 11x13" CD Softies Washable Wipes plus an instruction card. Kits are packed 6 units per 1.3 lb. case. 24x16x16" Mastercartons contain 24 cases of 6 (144 units) @ 34 lbs.

CD Fix-It Kit #REC-0365 - DVD Fix-It Kit #REC-0465 - Game Fix-It Kit #REC-0565 **Cost: \$5.00 List: \$9.99**

Laser Lens Cleaner

Many consumers don't know that they should clean their player or drive's optical "laser lens" to prevent skipping.

We understand the importance of "head cleaners" for our VCRs, so it's our job to educate consumers about the importance of "lens cleaners". Skipping is usually caused by dirty or scratched discs. But a dirty, dusty lens **inside** a player or drive can cause audio and video clarity to suffer. A dirty lens can cause a **player** to skip more often, load slower and eventually not play at all and require professional cleaning.

Our Anti-Static Dry-Type Lens Cleaners are precision-machined to ISO 9002 Standards right here in the USA!

No loose brushes, fingerprints, cracks, hairs, sweat, etc. **100% Guaranteed to have a 0.01% reject rate or less.** Unlike some others, our lens cleaners have a brush that is actually long enough to reach the objective lens! **Wet-Type** Lens Cleaners can cause problems inside the player. **Dry-Types** can cause harmful static build-up. Our lab-grade brush fibers are **infused with a tiny strand of copper** that eliminates brush static. Regular use safely cleans build-up of dust and debris to help keep CD, DVD and Game drives operating with true digital accuracy.

Voice, PC and Mac instructions. Compatible with most CD, CD-ROM, DVD, Game Disc, CD-R/W, DVD-R/W. Not for use in car stereo, slot loaded or CD changers (the brush will get bent). 5x7" raised blister card includes 1 cleaning disc in 1 hi-rise jewel case (for brush protection). Packed 6 units per 2 lb. case. 24x16x10" Mastercartons contain 10 cases of 6 (60 units) @ 22 lbs.

Laser Lens Cleaner #REC-0400 **Cost: \$5.00 List: \$9.99**

UltraCase

UltraCases Heavy Duty Jewel Cases are a new breed of disc storage: The Premium Jewel Case.

Backed by our **Lifetime Replacement Warranty**, these are the last jewel cases you'll ever need to buy. Yes, they are expensive, but so is replacing broken cases and cracked discs. Quality costs more. These **nearly unbreakable, almost indestructible** UltraCases feature a patent-pending "SuperHinge" that will NEVER BREAK during normal use and handles most abuse without breaking.

Our "Strongbox" design features a proprietary blend of high strength plastics that is **incredibly flexible and crack-resistant**. The "SuperHinge" is a radically new design that won't crack or break off like fragile hinges on regular cases. Drop it. Step on it. You'll see. No more broken hinges. You may be able to crack the case, but it will still be functional. (Just please don't hit it with a hammer.) **UltraCases** are the strongest, most durable Jewel Cases on the planet! A premium product for risk-minded collectors desiring disc insurance. Precision engineered and manufactured in the USA to the strictest tolerances, you won't find a higher quality Jewel Case at any price.

Standard 5 x 5.5 x 0.375" Single units or 5 x 5.5 x 4" 10-packs. 10-pks. are shrink-wrapped and weigh 2 lbs. Mastercartons are 10x8x4" and contain four 10-packs (40 units) @ 9 lbs.

UltraCase Singles #REC-1001 • 10pk #REC-1010 **Single Cost: \$0.75 List: \$1.00 • 10pk Cost: \$7.50 List: \$10.00**

CD/DVD Clean-It

The new CD & DVD Clean-It Kit offers an inexpensive spray cleaner to simply clean discs that don't need repair.

It's smart for consumers to purchase this simple cleaner for \$5, even if they already use CD Fix-It. If you want to fix scratches, you need the Fix-It Kit. **CD Clean-It does not repair the disc surface, it is only a cleaner.** Discs need to be clean for distortion free playback, but don't waste CD Fix-It on just cleaning discs! Most **isopropyl alcohol & water** solutions clean discs well, but CD Clean-It has advantages...

We balance the cleanest alcohol available with purified & de-ionized water to give CD Clean-It **anti-static properties** that neutralize static on the disc surface, reducing its tendency to attract dust. Plus, **CD Clean-It** contains added detergents powerful enough to remove stubborn, sticky filth, yet safe enough to remove contaminants without harming the disc surface. Like Fix-It, Clean-It is non-hazardous and non-flammable. Each Clean-It Kit includes a 2-oz. bottle of thin, clear spray fluid and two CD Softies Washable Cloths that can be washed again and again!

CD and DVD Clean-It are identical products, just different packaging for different stores or departments. The 4x7x1" Kits are packed 6 units per 1.8 lb. case. 24x16x16" Mastercartons contain 24 cases of 6 (144 units) @ 46 lbs.

CD Clean-It-Kit #REC-0130 - DVD Clean-It #REC-0140 **Cost: \$2.50 List: \$4.99**

CD/DVD Softies

CD & DVD Softies are our Earth-Friendly answer to wasteful, disposable wipes.

These Premium CD Cloths can be washed and re-used again and again and will remain virtually lint-free even after repeated washings! Have you ever used some of the tiny, frustrating little wipes out there? At 11" x 13", CD Softies are bigger and easier to use than most wipes.

These specialty cloths are made with non-woven fibers designed to safely remove contaminants from delicate surfaces.

CD Fix-It, CD Clean-It and other CD treatments are easily and safely applied with CD Softies. Each unit includes two long-lasting cloths durable enough to withstand hundreds of uses. (Although, consumers tend to throw them in the trash and buy more.)

Each zip-locked 2-pack of wipes is stapled to a header card and hangs 4x6". Packed 12 units per 0.8 lb. case. 24x16x16" Mastercartons contain 24 cases of 6 (144 units) @ 22 lbs.

CD Softies #REC-0300 - DVD Softies #REC-0310 **Cost: \$1.00 List: \$1.99**

CD Protectors are coming soon... clear shields that protect discs from dirt and scratches and actually stay on during playback. Then, we'll introduce an innovative new device now under development that will take the industry by storm!
